

Veggie patch retaining wall

Hey Simon

We may need to do the veggie patch job separate from the much bigger job of the 4 retaining walls. We have a wedding here in March! Its a real mess up there.

Can you please quote me for that job, bored piers, steel columns and concrete sleepers, from bottom to top? Itemise the cost for the soil replacement/compaction, I'll seek insurance coverage for that (they wont cover retaining walls, but they will replace the garden beds/planting area).

If Council has not accepted responsibility soon, we'd like to get that job done, on our nickel, pretty soon!

Best

Gerry
