 *****Only for Works Outside the SIMS/SLR Contract*****
 *****Most drainage issues are covered by contract*****
Are you expert in your knowledge of our contracts: Yes
Are you certain job is outside contract: Yes
 *****Customer Response Management*****
Does customer wish to be contacted: Yes

Request Details:

There is no Stormwater around this property. The nearest pit is about 500M away. All water goes into pits which can't cope with a heavy downpour. He is wanting to know if there are any upgrades planned.

There appears to be very little Pits and pipes around his address.

He has had his garage flooded and is worried it will happen again.

Please make contact with customer to discuss the outcome.

Thanks

01-Dec-22 @ 03:10 PM Notes Comment by Trebilco Brandon
Vicroads road, water only coming from roadway and no where else, hence new pit and pipe would be up to the discretion of vicroads, emailed resident advising of this:

"
Hi Frank,

Emailing in regard to your drainage case in particular the request for new pits and pipes at 563 point Nepean road. You are correct in saying the drainage in place is very sparse, Unfortunately in this case with the water only coming off Point Nepean road, a VicRoads (or DOT) road it would purely be there responsibility and up to them to install.
My apologies I cant assist on this one but you will have to contact them.

Best of luck,
"
