Good afternoon Customer Service Team

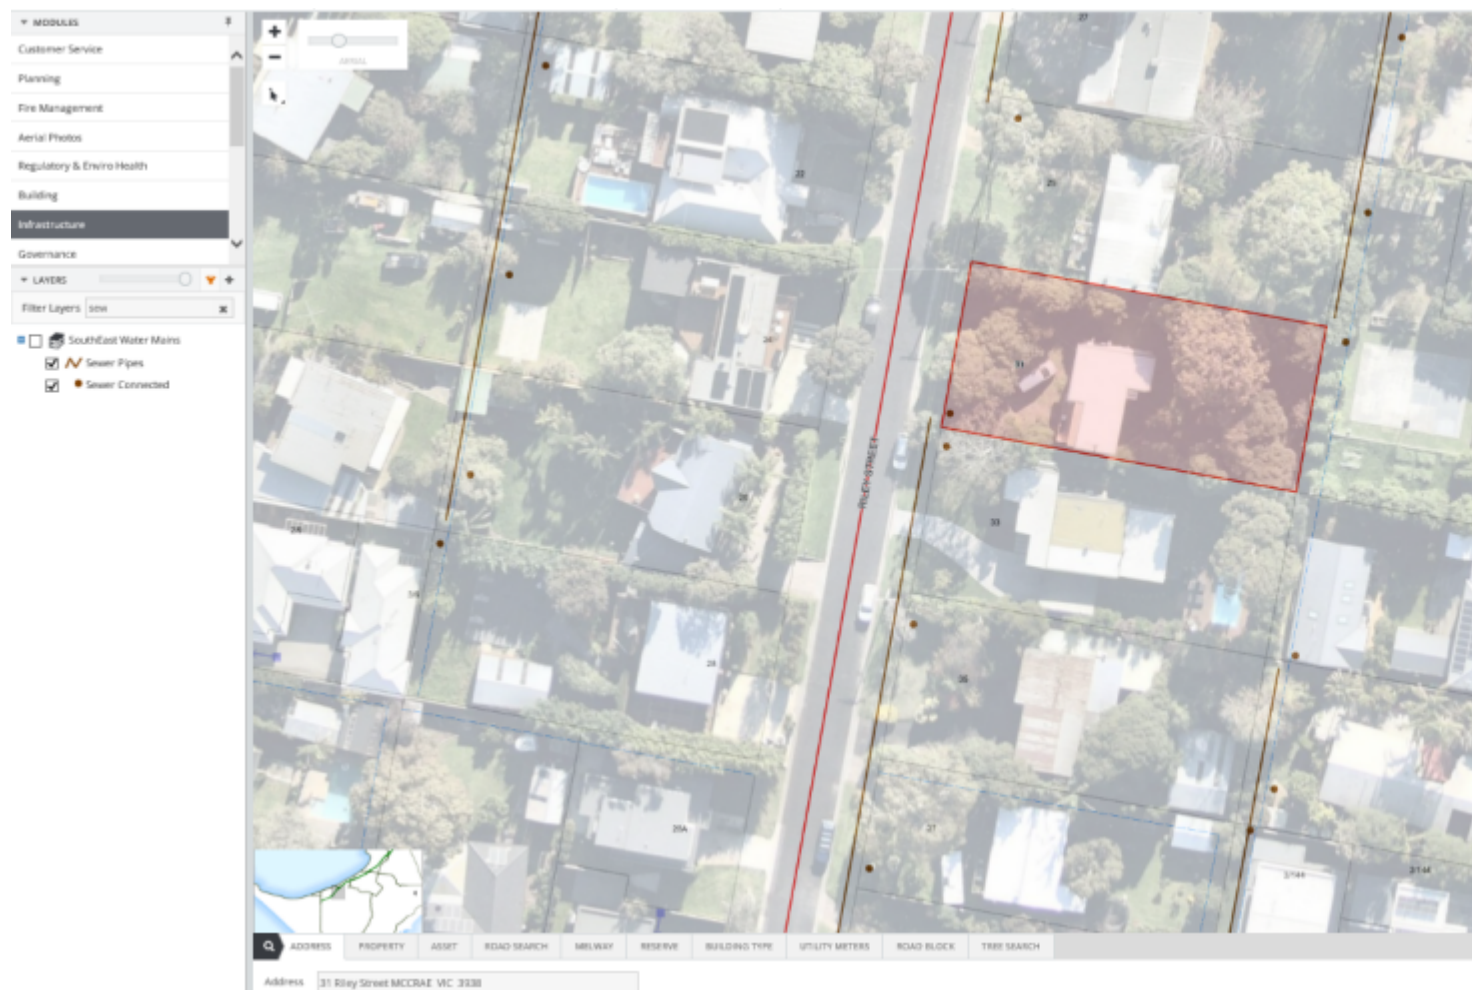

Mornington Peninsula Council has received a case regarding a sunken hole on the nature strip.

On our system Council does not have any assets on this road. In the picture provided below our system shows that there is a SEW pipe located in the area.

SR: 2024-052463

"Customer called to report that there is a sunken down hole that has appeared in his nature strip at 31 Riley street McCrea. He has requested that someone come out and inspect this hole and conduct any maintenance necessary. He suggested that the hole needed to be filled in with soil and then some grass seed. Could you please attend to inspect this. Thanks very much"

Can you please investigate the customers concerns?

Kind Regards

Sai
