SITE VALUE: \$1,220,000

AMOUNT PAYABLE: \$0.00

Notes to Certificates Under Section 95AA of the *Taxation Administration Act 1997*

Certificate No: 61917068

Power to issue Certificate

1. The Commissioner of State Revenue can issue a Property Clearance Certificate (Certificate) to an owner, mortgagee or bona fide purchaser of land who makes an application specifying the land for which the Certificate is sought and pays the application fee.

Amount shown on Certificate

2. The Certificate shows any land tax (including Vacant Residential Land Tax, interest and penalty tax) that is due and unpaid on the land described in the Certificate at the date of issue. In addition, it may show:
 - Land tax that has been assessed but is not yet due,
 - Land tax for the current tax year that has not yet been assessed, and
 - Any other information that the Commissioner sees fit to include, such as the amount of land tax applicable to the land on a single holding basis and other debts with respect to the property payable to the Commissioner.

Land tax is a first charge on land

3. Unpaid land tax (including Vacant Residential Land Tax, interest and penalty tax) is a first charge on the land to which it relates. This means it has priority over any other encumbrances on the land, such as a mortgage, and will continue as a charge even if ownership of the land is transferred. Therefore, a purchaser may become liable for any such unpaid land tax.

Information for the purchaser

4. If a purchaser of the land described in the Certificate has applied for and obtained a Certificate, the amount recoverable from the purchaser cannot exceed the 'amount payable' shown. A purchaser cannot rely on a Certificate obtained by the vendor.

Information for the vendor

5. Despite the issue of a Certificate, the Commissioner may recover a land tax liability from a vendor, including any amount identified on this Certificate.

General information

6. A Certificate showing no liability for the land does not mean that the land is exempt from land tax. It means that there is nothing to pay at the date of the Certificate.
7. An updated Certificate may be requested free of charge via our website, if:
 - The request is within 90 days of the original Certificate's issue date, and
 - There is no change to the parties involved in the transaction for which the Certificate was originally requested.

LAND TAX CALCULATION BASED ON SINGLE OWNERSHIP

Land Tax = \$4,735.00

Taxable Value = \$1,220,000

IMPORTANT INFORMATION ABOUT THE PRIORITY SITES REGISTER:

You should be aware that the Priority Sites Register lists only those sites for which:

Priority Sites are sites for which EPA has issued a:

- Clean Up Notice pursuant to section 62A) of the Environment Protection Act 1970
- Pollution Abatement Notice pursuant to section 31A or 31B (relevant to land and/or groundwater) of the Environment Protection Act 1970
- Environment Action Notice pursuant to Section 274 of the Environment Protection Act 2017
- Site Management Order (related to land and groundwater) pursuant to Section 275 of the Environment Protection Act 2017
- Improvement Notice (related to land and groundwater) pursuant to Section 271 of the Environment Protection Act 2017
- Prohibition Notices (related to land and groundwater) pursuant to Section 272 of the Environment Protection Act 2017 on the occupier or controller of the site to require active management of these sites, or where EPA believes it is in the community interest to be notified of a potential contaminated site and this cannot be communicated by any other legislative means. Sites are removed from the Priority Sites Register once all conditions of a Notice have been complied with.

The Priority Sites Register does not list all sites known to be contaminated in Victoria. A site should not be presumed to be free of contamination just because it does not appear on the Priority Sites Register. Persons intending to enter into property transactions should be aware that many properties may have been contaminated by past land uses and EPA may not be aware of the presence of contamination. EPA has published information advising of potential contaminating land uses. Council and other planning authorities hold information about previous land uses, and it is advisable that such sources of information should also be consulted.
