Subject: Re: Macrae Landslip

No answers to my messages again : I'll let dick heads wander around on the slope in future .

It seems we get no information but our neighbours do

We are now in Tootgarook for 19 days : a bloody pain in the arse having to move again.

We are both pissed off : I'm hearing the person on the hill has got rid of his contractor : to expensive or not prepared to do his bidding .

I want to say much more but need to be careful as we don't know who to trust anymore .

No plans : no detail : no timings : just some proposals .

Benjamin I'm sorry who are recovering from covid and hope you are well : I just need to release the frustration

Chris didn't respond either
