Dear Kunal

**McCrae Landslip**  
**Our client: Willigenburg**

As a courtesy we advise our clients instructions.

1. Barrister Bernard Carr has advised that the emergency order is not valid, never was and the extent of the power, post duration of the order, in any event deems the order is no longer relevant for that reason also.
2. We have had an initial engineering assessment which confirms the appropriateness of our client having all relevant geo technical/engineering information to hand, including any proposed preliminary protection works including "soldier piles" on the rear of our client's boundary intersecting Penny Lane.
3. Our clients instruct that they are going to move back into their house.

Please acknowledge receipt of this correspondence.

Yours faithfully
