Flow Rate (L/min)	0.8
Has the leak been called in by DS Technician?	No
Job Ref	LD0013
Leak Visible	No

Comments

0.8l/m (50l/h)

Sounded outside taps, back tap dead quiet, front tap slight noise

Service stream arrived, dug a few holes both sides of front garage & in Front garden, with no luck, although I am picking up noise in pot holes.
Discovered that service is pvc

Sounded with ground phone across garage slab & also picking up noise across garage floor, one half of concrete slab slightly louder.

Service stream will install some stop taps both sides of garage to narrow leak down at a future date.

& if leak is under concrete slab they may re-route service line

2 hr onsite
