Comments

Not convinced there is a leak here.

Sounded meter.....dead quiet,...apart from. Distant noise from nearby prv/zone valve/strainer (WB131)

Ran straight line Correlation which peaked on zone valve

Surveyed yesterday afternoon 13/5 & early this morning 14/5

Yesterday noticed good noise on meter. Shut of meter & noise stopped, turned on meter & noise started again.

Today meter is dead quiet...apart from distant noise on zone valve/strainer (WB131)
