Andrew,  
Link to photos and videos of yesterday's (16/1/2025) drone work below:  
[Inspection Videos of McCrae Landslip](#)  
Any issues with the link please let me know.  
The LIDAR itself should be processed and available Monday 20<sup>th</sup> January. If it comes through quicker (it is their priority job) then I will forward through on receipt.  
Ill send a separate email regarding other queries (chemistry test results, stormwater videos etc) soon.  
Regards,

Dane Pope
