Subject:	Landslip McCrae

Hi Dane,

I undertook an inspection at the McCrae landslip today.

We used plumbers die in the storm water pits upstream of 10-12 View Point Road however we could not see any traces of the die at the landslip area.

It was noted that the amount of water flow has possibly increased at the base.

I have shared the photos and video via google share using a personal account. Please let me know if this has not come through.
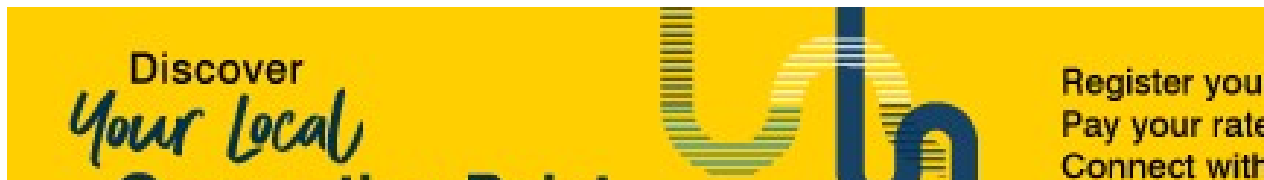

Kind regards
