13	PSM5665 RFI - Historical surveys	3:47pm 3/02/2025	Emily.Harkin@mornpen.vic.gov.au lhovendene@ha.legal bbroadhead@ha.legal	To feed into assessments of hillside hazards and to assess cut/fill works on the escarpment can Council please check what archived survey files they have available?  We are particularly interested in any 1 m to 10 m contours from the 1980s, 1990s, early 00s. These may be old hard copy drawings.  The MBS team (Dave) mentioned that there may also be a 2010 LIDAR file available.  We would be interested in the broad escarpment area as previously defined. Can the team please confirm with the property owner what this feature is and if it has connectivity to the tanks. If the owners could check their plumbing drawings that would also be helpful. 15	RE: Meeting 030225 - Crisis Management Working Group - SEW report Jan Road Opening Permits-Subject to LPP [IMAN- ACTIVE.FID1000052]	11:34am 5/02/2025	Emily.Harkin@mornpen.vic.gov.au Ihovendene@ha.legal bbroadhead@ha.legal	Can we please request additional information from SEW on the following addresses:  *3 Charlesworth (1304490/004). It is my understanding from conversations with SEW reps on site that they did chemistry testing on the water. This is also on their website.  *3 Penny Lane (1299529/004) – again I believe they sampled the landslide water (SEW reps mentioned high chlorides (well above and outside possible potable range)).  Then once that is supplied it goes to Risk and Causation and Charlesworth.  Historical surveys requested will go to risk (e.g. credible source associated with cut/fill), escarpment brief and cause.
