Detail:	**Please see original case 017576 for further information** Resident has reported that the same issues they were having previously is re occurring. Water is bubbling from the storm water pipe on the front nature strip of 16 Chunar Grove, McCrae. Resident has advised that this has been an ongoing issue for over a year. 1500 have confirmed that works were completed back in Jan 2024 however the same issue has arose. The water is also bubbling from the tar on the road. The tar is that wet that you can put your foot through it. Resident would like this issued further investigated and resolved. Resident is happy to arrang I/S eet onsite to further discuss. Please contact Resident on to provide an update. Thanks
