Detail:	I first reported this blocked side entry pit on the 12th October and it has yet to be cleared? I received a call back message on the 14/10/24 assuring me it would be dealt within 10 business days. We are situated two doors down from the land slip at 10-12 View Point Road and are seeing constant water seepage onto our block 18-20 View Point Road as what we see as the build from spring water not getting away as a consequence of the remedial works undertaken in View Point Road in the last 12 mths. We are fearful that if this blocked pit is not cleared we may suffer a similar land slip event. Your immediate attention to this problem is sought! Could you please respond to me directly as soon as possible
