**REASON(S) WHY THIS NOTICE WAS SERVED:**

In accordance with Section 106(d) of the Act, I am of the opinion that the following circumstance exists:

**Danger to life, safety or health from the building**

1. The building is a danger to life safety or health of any member of the public or any person using the building because of its proximity to unstable land on adjoining properties. This puts the building in a vulnerable condition because it is likely to be damaged if the unstable land collapses making it dangerous.
2. Any occupiers of the building may suffer injury if the unstable land collapses causing land or buildings from adjoining properties to slide or collapse resulting in damage to the land or building on your Property.
3. The unstable land arises due to landslides occurring on or about 5 and 14 January 2025 on the 3 properties known as 10-12 View Point Road. McCrae, 6 View Point Road McCrae and 3 Penny Lane, McCrae. Pending remediation work to these 3 properties, the land will remain unstable and the building on your Property will be dangerous.

# Notes

## 1. Representations by owner and cancellation of Notice

Under Section 109 of the Act an owner may make representations to the Municipal Building Surveyor about the matters contained in the Building Notice. Any representations are to be made in writing to the Municipal Building Surveyor before the end of the 'show cause' period. The Municipal Building Surveyor may cancel a Building Notice if he considers it appropriate to do so after considering any representations made under Section 109.

## 2. Building Order

Subject to Section 107 of the Act, the municipal or private building surveyor may make a building order under section 111 after the end of the time allowed for making representations.

## 3. Appeals to the Building Appeals Board

Under Section 142(1) of the Act, an owner of a building or land may appeal to the Building Appeals Board against a decision to serve a building notice, a failure within a reasonable time, or refusal to cancel a building notice. In accordance with Section 146 of the Act and Regulation 271 of the Building Regulations the prescribed appeal period is 30 days from the date of the building notice.

## 4. What is a Building Notice?

A Building Notice is a 'show cause' Notice. In simple terms, the recipient of a Building Notice is required to provide the Municipal Building Surveyor reasons with why he or she should not comply with the directions detailed in the Notice.

## 5. Why has a Building Notice been issued?

An authorised officer of the Statutory Building unit has recently inspected the property and identified general safety/non-compliance building related issues. The Municipal Building Surveyor is responsible for addressing these issues in the form of a Building Notice as required by Section 106 of the Building Act 1993.

## 6. What are you required to do?

It is in your best interest to respond in writing to the Municipal Building Surveyor.

## 7. Building Order

A Building Order is the next step in the process. If a Building Order is issued, you will be required to undertake the directions of the Order within the stated timeframe. Importantly, compliance with a Building Order is enforceable in the Magistrates Court.

## 8. What if you do nothing?

The intention of the Building Notice process is to open a discussion between yourself and the Municipal Building Surveyor regarding the issues identified. In the event the Municipal Building Surveyor does not receive a response, a Building Order will be issued containing the same directions detailed within the Notice.

## 9. Due date calculation

The due date is calculated by adding 5 days postage time to the 30 day show cause period.

If you require any further information, please contact Claudio Flores of the

Statutory Building Unit on (03) 5950 1060 or 1300 850 600.
