Danger to life, safety or health from building/land

The buildings/land are a danger to the life safety or health of any member of the public or of any person using the building/land or to any property.

1. Landslides occurred on or about 5 January 2025 and 14 January 2025) (the **Landslides**) at the Property and at the adjoining properties known as 10-12 View Point Road, McCrae, Victoria and 3 Penny Lane, McCrae, Victoria (**Landslide Site**).
2. The Landslides have caused the land on the property to be unstable, with the result that further landslides are highly likely.
3. The main dwelling on the property is a danger to the life of any person occupying the buildings, as the structural integrity of the footings of the main dwelling may be compromised. Any movement in the soil on the land may cause lateral movement in the footings system, resulting in a danger of death or serious injury to:
 - (a) any persons occupying or otherwise using the main dwelling or other buildings on the property;
 - (b) any persons who are otherwise on the land.
4. Persons occupying those buildings or who are on the property near the buildings, are in danger of serious injury or death from:
 - (a) being physically struck/impacted parts of the main dwelling if it collapses; and/or

Notes

1. Representations by owner and cancellation of Notice

Under Section 109 of the Act an owner may make representations to the Municipal Building Surveyor about the matters contained in the Building Notice. Any representations are to be made in writing to the Municipal Building Surveyor before the end of the 'show cause' period. The Municipal Building Surveyor may cancel a Building Notice if he considers it appropriate to do so after considering any representations made under Section 109.

2. Building Order

Subject to Section 107 of the Act, the municipal or private building surveyor may make a building order under section 111 after the end of the time allowed for making representations.

3. Appeals to the Building Appeals Board

Under Section 142(1) of the Act, an owner of a building or land may appeal to the Building Appeals Board against a decision to serve a building notice, a failure within a reasonable time, or refusal to cancel a building notice. In accordance with Section 146 of the Act and Regulation 271 of the Building Regulations the prescribed appeal period is 30 days from the date of the building notice.

4. What is a Building Notice?

A Building Notice is a 'show cause' Notice. In simple terms, the recipient of a Building Notice is required to provide the Municipal Building Surveyor reasons with why he or she should not comply with the directions detailed in the Notice.

5. Why has a Building Notice been issued?

An authorised officer of the Statutory Building unit has recently inspected the property and identified general safety/non-compliance building related issues. The Municipal Building Surveyor is responsible for addressing these issues in the form of a Building Notice as required by Section 106 of the Building Act 1993.

6. What are you required to do?

It is in your best interest to respond in writing to the Municipal Building Surveyor.

7. Building Order

A Building Order is the next step in the process. If a Building Order is issued, you will be required to undertake the directions of the Order within the stated timeframe. Importantly, compliance with a Building Order is enforceable in the Magistrates Court.

8. What if you do nothing?

The intention of the Building Notice process is to open a discussion between yourself and the Municipal Building Surveyor regarding the issues identified. In the event the Municipal Building Surveyor does not receive a response, a Building Order will be issued containing the same directions detailed within the Notice.

9. Due date calculation

The due date is calculated by adding 5 days postage time to the 30 day show cause period.

If you require any further information, please contact Claudio Flores of the

Statutory Building Unit on (03) 5950 1060 or 1300 850 600.
