The Board of Enquiry, McCrae landslip.

As a person who was directly affected at the time to the effects of the landslip I had wished to present a submission to the above enquiry which would have been based around the attached Freedom Of Information requests I have placed with both the Mornington Peninsula Council and South East Water, neither whom have at this time responded to my requests.

As a result I wish to be able to send my submission to you after the cut off date.

I also have had no response to my verbal requests asking for a time estimate from either party.

Thanking you in anticipation

Regards

James Richard Bendell

View Point Rd.
